TONKATSU ENBITON

TONKATSU ENBITON

The very essence of our brand name, **'EN'** representing **a gathering place,** and **'Biton' meaning beautiful**, perfectly captures the soul of our restaurant.

We source only the finest pork from Japan and beyond.
Airy, light and crispy panko imported from Saitama ensures every cut of pork we serve maintains the highest standards of quality and flavours.

What sets us apart is our presentation of tonkatsu, showcasing our signature fried katsu alongside a diverse selection of proteins.

Explore our diverse menu of signature dishes, from rich and flavourful ramen to satisfying bento sets, crafted with carefully selected, high-quality ingredients to celebrate the rich and complex flavours of Japanese cuisine.

HOW TO ENJOY TONKATSU?

TONKATSU

Grind the roasted sesame seeds and add them to your tonkatsu sauce for an extra fragrant and flavourful touch. Experience the traditional way of enjoying tonkatsu by dipping the meat into the tonkatsu sauce.

OROSHI TONKATSU

Grated daikon radish mixed with yuzu ponzu dressing. Pair both daikon and tonkatsu for a refreshing and tangy flavour.

MISO TONKATSU

For a rich and savoury umami flavour that enhances the crispy and fried texture of your pork katsu, try pairing it with a delicious miso sauce.

CABBAGE

Mix the light and crunchy cabbage with the roasted sesame sauce. The cabbage cleanses your plate and balances out the rich and fried flavour of the katsu.

PICKLES OF THE DAY

Recommended to pair it with rice. It adds a refreshing taste to the dish, and helps to refresh your taste buds and balance out the rich and fried flavour of the tonkatsu.

MISO SOUP

Prepared with savoury flavour and wakame. Best paired with tonkatsu to balance out the fried texture of the katsu.

WHAT IS SPECIAL ABOUT 北海道 HOKKAIDO PORK?

Tender & Juicy Hokkaido Shirakaba Pork

Shirakaba Pork is named after the Shirakaba Tree (white birch) that is said to relieve stress.

The pigs are raised in Hokkaido, where the cold temperatures are ideal for their sensitivity to warmer climates. This setting is crucial for producing stress-free, safe, and healthy pork.
